

Leadership Series Agenda: New York, 1 August 2017

[REGISTER HERE](#)

Supply chains can be complex, dynamic and difficult to navigate. This challenge requires advanced analytics that fuel insights, anticipate risks and opportunities, and enable timely and impactful decision-making. ELEVATE is leading the industry beyond the paradigm of reactive social and environmental compliance to a more predictive beyond-audit landscape. Our Leadership Series will introduce concepts to future proof supply chains, present emerging trends, and outline practical measures for designing effective supply chain programs.
