亚洲可持续发展评级 韩居首我国排名第五

为期两天的第八届企业社会责任亚洲峰会昨天在香港举行，韩国企业在峰会上所公布的2010年亚洲可持续发展评级（Asian Sustainability Rating）榜高踞榜首，新加坡排名第五。

评级报告是一套给予亚洲企业、投资者和其他持股人参考的环境、社会和管理基准工具。一家公司的可持续发展性可以是他们在制定投资决策和业务承诺时的考虑因素。

新加坡在榜上排行第五，排在韩国、印度、马来西亚和泰国之后。

企业社会责任亚洲执行董事里昂（Erin Lyon）表示，公司的可持续发展性将带来长远的影响。

投资者倾向于寻找懂得妥善处理社会风险和管制的公司作为投资目标。求职者一般也选择为懂得留住和吸引员工的公司工作，因为这表示职员士气高。员工流动性小也表示公司能省下聘用和训练新员工这方面的资源。

今年参与亚洲可持续发展评级的共有542家公司，当中城市发展（City Developments）在所有企业当中排名第四，嘉德置地（CapitaLand）则排名37。

Headline: Korea Tops Asian Sustainability Rating while Singapore is Ranked Fifth

Summary Translation:

As announced at the 8th CSR Asia Summit held in Hong Kong yesterday, Korea is ranked top in the Asian Sustainability Rating while Singapore is in the fifth place.

This sustainability report is catered to Asian corporations, investors and other stakeholders' needs in gaining insights on the Environment, Social and Governance levels of companies. There are potential opportunities for companies to add the sustainability dimension during investment decision-making and engagement practices.

Singapore ranks fifth in the charts, behind Korea, India, Malaysia and Thailand.

According to Executive Director of CSR Asia, Erin Lyon, a company's sustainability level will have long-term impacts on its business.

Companies of high sustainability will attract investors who are increasingly looking for companies that are managing environmental, governance and social risks properly. Sustainable companies are also able to retain and attract staff more successfully. Surveys show that people want to work for companies in which they have pride in. High morale means low turnover, which in turn reduces costs.

This year's Asian Sustainability Rating comprises 542 companies, of which City Developments is ranked fourth amongst all the companies, while CapitaLand is in the 37th place.
